### CALL FOR SOLIDARITY

The Eliminate Project was launched during The Geneva Convention. for the next few years we shall have to make great efforts so that we can reach our goal of eliminating tetanus in newly born infants and in mothers of child bearing age".

The contribution of Kiwanis to this campaign which was initiated by UNICEF must help us to achieve a record in fundraising. Children and mothers suffering from this terrible disease must be given the hope that the disease can be eradicated and our efforts will go a long way to achieving this goal..

To reach our goal each single club must undertake to donate a fixed percentage of its community service budget to this global project. we must, at all levels, make this goal our main target

The figure of 10% annually seems to me a reasonable amount to have as goal during the next five years. We all know that we can rely on the solidarity of each Kiwanis member and personally I am certain that we shall succeed
